

MINI T

ecosmar⁺
Fire

Perfect for alfresco living, the Mini T stands just 462mm high and is perfect for intimate gardens, alfresco dining settings, bars and restaurants.

The Mini T is constructed from brushed stainless steel and features a stainless steel burner insert and toughened glass surround, which not only enhances the drama of the fire, but also ensures safety.

Like its Designer Range counterparts, the Mini T is fuelled by Bioethanol, an environmentally friendly, renewable energy.
