FUSION

ecosmart Fire

Synonymous with its name, the Fusion fireplace blends style with function. With its streamlined, uncluttered lines, the Fusion is both smart and modern, and designed to enhance most contemporary surrounds. Boasting minimalist chic and maximum practicality, the Fusion features a double opening with a 'see through' effect, creating a sense of space.

Essentially a rectangular-shaped fireplace, the Fusion offers much more. It is a stylish, freestanding piece of furniture designed to accept the EcoSmart Burner. The Fusion comes with a rear toughened glass panel and Wind Screen Static that's affixed to the front of the firebox.

The perfect accoutrement for contemporary living, the Fusion fireplace is ideal for installation in apartments, houses and commercial premises such as bars and restaurants.

The Fusion, like all models in the Designer Range, is a fully portable work of art and is fuelled by Bioethanol, an environmentally friendly, renewable energy. If your looking for a larger version of the Fusion, then the EcoSmart Vision is a similar-styled model, in a wider surround.

Designer	Paul Cohen
