

# Gaea<sup>plus</sup> --- GPH2500

## Outdoor/Indoor Space Heater

Suitable for Pubs, Clubs, Hotels, Smoking Areas, Promotion Events, Patios, Balconies, Terraces and Open Indoor Areas

### Friendly Heater

Heating your **BODY not Head** just like other free standing Warmwatcher models. Slim appearance makes it save outdoor space and **match outdoor and indoor**. With **1M effective length** of its **heating tube**, the heater covers more space than any other single unit ever does vertically.

**No need parts assembly**, open the packing and it's ready for use.

Light weight allows you to **lift and move** easily by its handle at back.

**Remote storage bracket** at back avoids missing.

**Extruded Aluminum** housing last for good + Custom finish is possible.

### Snap-in IP55 Design

Good with Heavy Rain, Snow, or Splash to any corner of the product.

Stand for Real Commercial circumstances.

Snap-in heating tube structure (**PATENTED**) makes easy tube **replacement**

**WITHOUT qualified electrician** guaranteeing a life time product for you.

### Carbon Fibre Heating Technology

Not heat air, only effective to flesh thus, **warmth not blown with wind**.

With 130° heating angle and 4.5 M heating distance covers area up to 20M<sup>2</sup>,

**60%+ more area and space on others**.

### Easy Control and Safe

Simply plug in, you got On/Off switch on each unit.

Full function remote controller leads you to operate the heater. You could keep the remote controller to avoid tampering.

**3-power setting**: 208-240V 50Hz/60Hz **800/1700/2500W**

**4-hours Timer** figures out the precise heating time once needed.

Different colored pilot indicator for **easy recognition** of function.

Built-in Sensor cuts off for saving & safety when over heating.

Built-in Tilt Switch cuts off the heater when falls down for your safety.

### PIR Economy Feature

PIR (Passive Infrared) economy feature automatically turns off the heating after

4 minutes when there is no movement within 3-4 meters in front of the heater.
